Skeletons

Par Villainy

Album : Raised in the Dark

We all have skeletons, skeletons, skeletons

(That keep us up at night)

We all have skeletons, skeletons, skeletons

(That keep us up at night)

We are still, we're cold

Our bodies growing old

And our bones, they show

We're losing touch now

Who are you to say

Things were easier when everyone had their way?

Skeletons watch me dreaming

See that I make it through the night

Skeletons keep me warm and safe from harm, safe from harm

Skeletons watch me dreaming

See that I make it through the night

Skeletons keep me warm and safe from harm, safe from harm

We all have skeletons, skeletons, skeletons

(That keep us up at night)

They'll keep you waiting

They'll keep you looking back

So let go, face it

We had a pact, so

Who are you to say

We were better off when everyone had their way?

Skeletons watch me dreaming

See that I make it through the night

Skeletons keep me warm and safe from harm, safe from harm

Skeletons watch me dreaming

See that I make it through the night

Skeletons keep me warm and safe from harm, safe from harm

What I'm afraid of is not a part of you

I just can't pull the world back into view

Skeletons, skeletons, skeletons

We all have skeletons

We all have skeletons, skeletons, skeletons

We all have skeletons, skeletons, skeletons

Skeletons watch me dreaming

See that I make it through the night

Skeletons keep me warm and safe from harm, safe from harm

Skeletons watch me dreaming

See that I make it through the night

Skeletons keep me warm and safe from harm, safe from harm

What I'm afraid of is not a part of you

I just can't pull the world back into view

Skeletons, skeletons, skeletons

We all have skeletons
