Fading Star

Par Weaving The Fate

Album : WTF The EP [Explicit]

Today, I'm sinking even further
Straight down than I was before
I had a strong foundation
But now i'm broke into the core
Thought that I would always have you here

Right beside of me

And we'd leave so much behind

Just to be

Just another fading star

just another fading heart

Just another fading story

Knowing all that we have lost

Knowing what our dreams have cost

Just another fading story

I realize you're caught up
With what i've been chasing for so long
But now it's different than i thought of
When I thought of it when i was young
But i will always have you here

Right beside of me

And we leave so much behind

Just to be

Just another fading star

Just another fading heart

Just another fading story

Knowing all that we have lost

Knowing what our dreams have cost

Just another fading story

Yeah...

Just to be

Just another fading star

Just another fading heart

Just another fading story

Knowing all that we have lost

Knowing what our dreams have cost

Just another fading story
