The Phantom Pain

Par WHITE ASH

Album : Insight

Where's my enemy?

I rove in the night

I struggle to breathe

Hey, what's going on?

Awake from a dream

That day is the night

Do you know what I mean?

The war is going on

Where's my enemy?

I rove in the night

You talk to me

Everything's better off

I wake from a dream

That's why I'm the knight

Do I wanna sleep?

I just say, No

Live it out

The word you said before

(A light is burning quietly)

(The birds are flying freely)

(The night is coming gradually)

I will etch that in my heart

Where's my enemy?

I rove in the night

I struggle to breathe

Hey, what's going on?

Awake from a dream

That day is the night

Do you know what I mean?

Live it out

The word you said before

(A light is burning quietly)

(The birds are flying freely)

(The night is coming gradually)

I will etch that in my heart and go
