Thunder Kiss '65

Par White Zombie

Album : Rock Classics Top 100

Well, sweet a little sista's high in hell cheat'n on a halo
Grind in a Odyssey Holocaust heart kick on tomorrow
And a breakdown agony said, "Ecstasy" in overdrive
When you're riding on the world, thunder kiss'n

1965 yeah

Five yeah

Demon-warp is coming alive

In 1965, five, five

Livin' fast and dying young like a endless poetry
My motor-psycho nightmare freak out inside of me
My soul salvation liberation on the drive
The power of the blaster move me faster

1965 yeah

Five yeah

Demon-warp is coming alive

In 1965, five, five

Gimme that, gimme that now, now, now

Yeah, roll'n like a supersonic

Another fool that gets down on it

Pig sweat a million miles

I got a heart atomic style

Make it look easy, that's what I said

Blast of silence explodes in my head

Yeah, yeah, yeah

Gimme that, gimme that now

Gimme that, gimme that now

Gimme that, gimme that now

Gimme that, gimme that

Step to the moonshine frenzy hail, the resurrection

What's new pussycat?

Can you dig the satisfaction?

Well, you can't take it with you but you can in overdrive

Yeah, some like it hot and twist'n

1965 yeah

Five yeah

Demon-warp is coming alive

In 1965, five, five
