You See Red

Par Wishbone Ash

Album : Time Was: The Wishbone Ash Collection

When a days work is done

And you're down on the ground

You come home just to find

That she's not around.

You see red, you see red,

When she takes you for a fool.

You see red, you see red

Read the writing on the wall.

What you give is what you get

When it comes to loving.

If you lie, make her cry,

She will leave you alone.

You see red, you see red,

When she takes you for a fool.

You see red, you see red

Read the writing on the wall.

So you drink your gin,

And drown your sorrows,

Don't expect a tomorrow.

Wasting away ain't now way to say

That you're sorry, for what you have done.

When a days work is done

And you're down on the ground

You come home just to find

That she's not around.

You see red, you see red,

When she takes you for a fool.

You see red, you see red

Read the writing on the wall.
