That's the way love is

Par Xavier Naidoo

Album : Zwischenspiel (disc 1 & 2)

Two people take a vow to be together

And live and love each other forever.

They promise to love a lifetime

Funny thing

Then they change their minds.

They both go their separate ways

And love is just a memory.

But a young heart doesn't stay sad long

Another love soon comes along.

That's the way love is

That's the way love is

That's the way love is

That's the way love is

Two people don't get along

Deep down in both have feelings very strong

They try hard to conceal it.

Their hearts burn 'cause they both know they can feel it.

That's the way love is

That's the way love is

That's the way love is

That's the way love is

Lovers leave without a reason

Feelings change just like seasons.

In love nothing's for certain

There's no use in pretending what's behind the curtain.

That's the way love is

That's the way love is

That's the way love is

That's the way love is

And sometimes it's so unfair

When the feeling's no longer there.

That's the way love is

And sometimes it's gratifying

Love's feeling just ain't no denying.

That's the way love is

That's the way love is

That's the way love is

That's the way love is

It's just the way love is
