Walk On By

Par Young Deenay

Album : TOP 1000 of the last 30 years

"Refrain:

You can feel my heart

You can be my love

I will be there ...

Whenever you just walk on by

FATIMA - yo, that's my name so check it out

I got shonuffa skills 'n I know what I'm talking 'bout

You might think that I'm too young but yo I got it goin on

And coz I'm young my rhymes they kickin fresh and strong

I saw you once or twice on my way home back from school

You's lookin fly, so I said "hi", but you was actin cool

I thought okay no way to stay and that's alright alright

I passed away - another chance, another day or night

So little do you know about the funkyness inside me

So come a little closer boy and don't you try da fight me

Honesty's a must but you and me can let it go

I touch your mind - I free your soul - commom now feel the flow

Refrain (2x)

Okeydokey - I'm collin with my best friend
I try to explain her, she says: Girl you better understand
This guy is just no good for you, he gamin on you sister
I know but hey what can I do - I like da funky mister
Saturday night and I'm feelin kinda lonely
Everyone's with someone - and me? I am the only
Not to have a cuty, na, do you think that's fair?
These guys just wanna booty - but I don't even care
There he is, my shining star, he's with a bunch of brothers
Smilin at me, comin to me, boy you're like no other
"Hi, my name's Vandell, I liked the way you smiled at me
I know this does sound kinda fast, but I do look for company"
Boy oh boy, didn't you recognize me yesterday?
My heart goes boum boum, no I can't let him get away
Stay baby stay until the break of day
I'll show you love. I'll bring you joy but anyway
