Take My Hand

Par Zary, Tanjent

Album : Take My Hand

I knew that I had you
Oh, when I saw you that night
Am I being stupid?
Now that your acting so shy
I'm in the backseat
You are my driver
Taking me nowhere
The night's getting brighter
So I pull you closer

Take my hand

Let me lead you tonight

(Let me lead you tonight)

If you wanna take my hand, we could run away

Be something magical, girl

We'd be more than just friends, yeah

So won't you take my hand?

(So won't you take my hand?)

We'd be more than just friends, yeah

So won't you take my hand?

If you wanna take my hand, we could run away

Be something magical, girl

We'd be more than just friends, yeah

So won't you take my hand?

If you wanna take my hand, we could run away

Be something magical, girl

We'd be more than just friends, yeah

So won't you take my hand?

If you were with me,
I could teach you to fly
We could be driftin'
As two lights through the night sky
Been in the backseat,
You were my driver
Takin' me nowhere
So I'm taking over
Now I've pulled you closer

Take my hand

Let me lead you tonight

(Let me lead you tonight)

If you wanna take my hand, we could run away

Be something magical, girl

We'd be more than just friends, yeah

So won't you take my hand?

(So won't you take my hand?)

We'd be more than just friends, yeah

So won't you take my hand?

If you wanna take my hand, we could run away

Be something magical, girl

We'd be more than just friends, yeah

So won't you take my hand?
