Planet Of Woman

Par ZZ Top

Album : Greatest Hits (Re-Edition)

What can I do, I'm a nervous wreck?

There's girls everywhere, I better go and check

(Check it out)

I can't tell a diamond from a hole in the ground

They all got my head spinning round and round

Planet of women, oh yeah

The planet of women, oh yeah

It's driving me insane

They start by acting just a little discreet

Then they're in the skies and they're in the streets

You can find them in cars or a hotel lobby

They're easy to find, just look for a body

Planet of women, oh yeah

Just a planet of women, oh yeah

Driving me insane

Ow!

Oh yeah!

Oh!

If you have the answer, drop me a line today

Or send a straight jacket something in a shade of gray

I think I've sprained my brain 'cause it won't unwind

Every day it's man against man on the

Planet of women, oh yeah

Just a planet of women, oh yeah

Driving me insane

It's driving me insane
